No. 2084-D1/44 dated 8th April 1945.

Sir,

Sub: Industries - Sericulture - Government Silk Filatures, Kollegal - proposals to open a dispensary submitting.

Ref: Government Memorandum No. 51178-D/44-5, dated - 30th January 1945.

In continuation of my letter of even No. dated 29th - January 1945, I have to state that I have obtained certain type designs for dispensary buildings from the Superintending Engineer, Coimbatore and selected type design No. 184 and forwarded the same to the Surgeon General with the Government of Madras and consulted him as to the adequacy of the accommodation provided in the type design for attending on 1600+500 or 2,100 workers to be employed in the Government Silk Filatures and Kollegal silk filatures, Kollegal. The Surgeon General has informed me that the building shown in the type design is adequate for the purpose in view and that the dispensary may be constructed near the filatures which employs the larger number of labourers. As the Government silk filatures employs the larger number of labourers, I have proposed to locate the dispensary in the compound of this filatures near the Electric Transformer station as shown in the site plan enclosed. I enclose herewith plans and estimates for Rs. 15,200/- for the proposed dispensary prepared as per sanitary Board type design No. 184 referred to above with

with a road way leading to the dispensary from the filature main road and request that Government may be pleased to sanction the construction of the above works at a cost of Rs. 15,200/-.

ctor of Industries and
Commerce.

The General Manager, Government silk filature has suggested that as most of the workers in the filature are women, the Lady Doctor attached to the local hospital should attend the factory on 2 days in a week, other than the day on which the Civil Asst. Surgeon attends. He has also proposed the appointment of a full time compounder who could issue stock mixtures and attend to simple dressings. I am corresponding with the Surgeon-General with the Government of Madras in the matter of their pay and allowance and shall address Government as soon as his reply is received.

Government Hospital, Kollegal, attending the Filature on 2 days in a week and for the appointment of a full-time compounder. The Surgeon-General with the Government of Madras, whom I consulted has recommended a sum of Rs.3/- per visit to the woman surgeon and a scale of pay of Rs.28-1/2-40 for the full time compounder. I suggest that the Surgeon General be instructed to depute the woman-Assistant Surgeon of the Kollegal Hospital to visit the Government Silk Filature accordingly on the remuneration recommended. Sanction may also be accorded for the employment of a full-time compounder in the Government Silk Filature on a scale of Rs.28-1/2-40. | A | B

Sir,

Sub:- Industries - Government Silk Filatures, Kollegal - Deputation of Woman Sub-Assistant Surgeon, Government Hospital, Kollegal.

Ref:- Government Memorandum No.35502-2D2 P.H., dated 7-9-45.

With reference to the Government Memorandum cited above I have to state that there are two Silk Filatures functioning at Kollegal under Government management and these are outside the town limits and away from each other. It is therefore not possible for the Woman Sub-Assistant Surgeon attached to the Government Hospital at Kollegal to visit both the filatures on the same day twice a week. If she has to visit the filatures on two

p.t.o

different days twice a week the hospital work will suffer on the afternoon of four days in a week. The Woman Sub-Assistant Surgeon has therefore been asked to visit each factory once a week for the present. I request that the Government may be pleased to approve the above arrangement.

In this connection, I invite reference to Government Memorandum No.33073/45-5-D2 Public Health dated 10-12-43 wherein the Government have approved the proposal to depute the Civil Assistant Surgeon, Government Hospital, Kollegal to visit the two filatures once instead of twice a week.

~~In~~ In September 1943, the D. The Govt approved such arrangement in G.O. 1944 (MS) Dev. dd 2.5.44. The annual recurring expenditure for this arrangement is Rs 600. The D. I. & C. has now submitted plans and estimates for the establishment of a dispensary at Kollegal. The cost is estimated to be Rs 15,200/-.

It is now for orders whether the question may be now taken up with the Govt. of India or whether the D. of S. may be informed that the matter may be deferred pending a further communication from India on the subject that has been received.
